

New Edition of a Bestseller!

Functional Plant Ecology

A volume in the
Books in Soils, Plants, and the Environment series

Edited by

Francisco I. Pugnaire

*Dept of Functional Ecology and Evolution, Arid Zones
Research Station, Almería, Spain*

Fernando Valladares

Center of Environmental Sciences, Madrid, Spain

Read the reviews of the First Edition:

“...a well-structured handbook covering most trends in the field with interesting details. It is highly recommended not only to ecologists but to all biologists”

— Photosynthetica

“...an admirable job of outlining a research landscape which will likely grow in importance in the post-genomics era as plant biologists return to the long-standing question of understanding plant function diversity, or, in other words, understanding why there are so many ways of being an evolutionary successful plant.”

— Phytochemistry

“...a highly scientific work...responds to a wide range of needs”

— Advances in Horticultural Science

“...is of great interest to researchers involved in sustainable forestry...definitely on the highly recommended list.”

— Journal of Sustainable Forestry

Catalog no. 7488, June 2007, 742 pp.
ISBN: 978-0-8493-7488-3, \$159.95 / £92.00

FEATURES

- Provides a full understanding of how plants have successfully evolved in multiple ecosystems
- Focuses on new approaches to questions about photosynthesis, functional ecology and phylogeny
- Covers plant responses to pollution and plant performance at different scales
- Draws on all areas of plant ecology to provide the broadest view of functional approaches to plant ecology
- Presents easy-to-read, up-to-date introductions to each topic.

Provides the keys to understand ecosystem structure and function

Following in the footsteps of the successful first edition, **Functional Plant Ecology, Second Edition** remains the most authoritative resource in this multidisciplinary field. Extensively revised and updated, this book investigates plant structure and behavior across the ecological spectrum. It features the ecology and evolution of plant crowns and addresses approaches to generalization in functional plant ecology, including the species-sampling problem, plant ecology strategy schemes, and phylogeny.

The book follows a bottom-up approach, from the more specific, detailed studies focusing on plant organs to the broadest ecosystem approaches. It offers the latest findings and research breakthroughs in plant ecology, as well as consideration of classic topics in environmental science and ecology. A wide-ranging compendium, the book investigates plant structure and behavior across the ecological spectrum, from the leaf to the ecosystem levels.

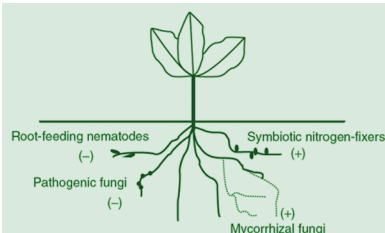

FIGURE 19.1

Rhizosphere organisms that have the greatest impact on plant performance. Positive interactions are indicated by (+); negative interactions are indicated with (-).

CONTENTS

| | | |
|-----------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods in Comparative Functional Ecology, <i>C.M. Duarte</i> | Functional Attributes in Mediterranean-Type Ecosystems, <i>R. Joffre, S. Rambal, and C. Damesin</i> | Biodiversity and Interactions in the Rhizosphere: Effects on Ecosystem Functioning, <i>S. Rodríguez-Echeverría, S.R. Costa, and H. Freitas</i> |
| Opportunistic Growth and Desiccation Tolerance: The Ecological Success of Poikilohydrous Autotrophs, <i>L. Kappen and F. Valladares</i> | Tropical Forests: Diversity and Function of Dominant Life-Forms, <i>E. Medina</i> | Resistance to Air Pollutants: From Cell to Community, <i>J. Barnes, A. Davison, L. Balaguer, and E. Manrique-Reol</i> |
| Ecological Significance of Inherent Variation in Relative Growth Rate and its Components, <i>H. Poorter and E. Garnier</i> | Plant Diversity in Tropical Forests, <i>S.J. Wright</i> | Canopy Photosynthesis Modeling, <i>W. Beyschlag and R.J. Ryel</i> |
| The Architecture of Plant Crowns: From Design Rules to Light Capture and Performance, <i>F. Valladares and Ü. Niinemets</i> | Arctic Ecology, <i>S.E. Hobbie</i> | Ecological Applications of Remote Sensing at Multiple Scales, <i>J.A. Gamon, H.-L. Qiu, and A. Sanchez-Azofeifa</i> |
| Structure and Function of Root Systems, <i>R.B. Jackson, W.T. Pockman, W.A. Hoffmann, T.M. Bleby, and C. Armas</i> | Plant Life in Antarctica, <i>T.G.A. Green, B. Schroeter, and L.G. Sancho</i> | Generalization in Functional Plant Ecology: The Species-Sampling Problem, Plant Ecology Strategy Schemes, and Phylogeny, <i>M. Westoby</i> |
| Water Relations and Hydraulic Architecture, <i>M.T. Tyree</i> | Facilitation in Plant Communities, <i>R.M. Callaway and F.I. Pugnaire</i> | Index |
| Responses of Plants to Heterogeneous Light Environments, <i>R.W. Pearcy</i> | Plant Interactions: Competition, <i>H.L. Reynolds and T.K. Rajaniemi</i> | |
| Acquisition, Use, and Loss of Nutrients, <i>F. Berendse, H. de Kroon, and W.G. Braakhekke</i> | Plant-Herbivore Interaction: Beyond a Binary Vision, <i>E. Baraza, R. Zamora, J.A. Hódar, and J.M. Gómez</i> | |
| | Ecology of Plant Reproduction: Mating Systems and Pollination, <i>A. Traveset and A. Jakobsson</i> | |
| | Seed and Seedling Ecology, <i>K. Kitajima</i> | |

FREE SHIPPING ON ALL ORDERS when you ORDER ONLINE at WWW.CRCPRESS.COM

Please indicate quantities next to the title(s) ordered below:

FUNCTIONAL PLANT ECOLOGY, SECOND EDITION
.....Catalog no. 7488, ISBN: 978-0-8493-7488-3 at \$159.95 / £92.00 each.

Other titles of interest:

ECOLOGY AND BIOMECHANICS: A MECHANICAL APPROACH TO THE ECOLOGY OF ANIMALS AND PLANTS
.....Catalog no. 3209, ISBN: 978-0-8493-3209-8 at \$139.95 / £79.99 each.

HANDBOOK OF PHOTOSYNTHESIS, SECOND EDITION
.....Catalog no. DK3138, ISBN: 978-0-8247-5839-4 at \$159.95 / £97.00 each.

PLANT-ENVIRONMENT INTERACTIONS, THIRD EDITION
.....Catalog no. DK6017, ISBN: 978-0-8493-3727-7 at \$129.95 / £74.99 each.

Ordering Information: Orders must be prepaid or accompanied by a purchase order. Checks should be made payable to CRC Press. Please add the appropriate shipping and handling charge for each book ordered. All prices are subject to change without notice. If purchasing by credit card please be sure to include the 3 digit security code that appears on the back of your card in the "sec code" field provided below. **U.S./Canada:** All orders must be paid in U.S. dollars. TAX: As required by law, please add applicable state and local taxes on all merchandise delivered to CA, CT, FL, KY, MO, NY, and PA. For Canadian orders, please add GST. We will add tax on all credit card orders. **European Orders:** All orders must be paid in U.K. £. VAT will be added at the rate applicable. **Textbooks:** Special prices for course adopted textbooks may be available for certain titles. To review a book for class adoption, contact our Academic Sales Department or submit your textbook evaluation request online at www.crcpress.com/eval.htm **Satisfaction Guaranteed:** If the book supplied does not meet your expectations, it may be returned to us in a saleable condition within 30 days of receipt for a full refund.
